

The K-Love station in my area, which is out of Bucyrus, offers great support and encouragement to me on a daily basis. I know that if it were to be replaced by some other type of station, the entire local community would feel the effects. There are not many stations of this type left- where God's Word and the basics of the Christian faith are on the air non-stop. It provides a great service to the public - positive & encouraging - just like they say. God has placed this station here for a reason, please let that reason be fulfilled.
